Political System and Public Policies in Mexico

José Luis Méndez Martínez, Ph. D.

In this short course the Mexican Political System will be studied in relation to the way the public policy process occurs, as well as the way several key public policies are introduced into the public agenda, formulated and implemented. The course will be divided in four sections concluding with the overall nature of the Mexican Political System and of the Mexican State (as either strong, weak or failed) The State will be discussed in relation to its capacity to develop public policies, as well as some perspectives on the reforms needed for the Mexican State to become a stronger one.
